EDWARD D. STONE FOR RE-ELECTION

Tax Payers Interested in His Race
For Former Office.—One Who
Was Daily at His Duty.

SOMETHING OF HIS WORK.

Representative Edward D. Stone, the Republican nominee for Representative, is delivering some able speeches on the issues of the state.

Mr. Stone has been weighed in the balance and found not wanting. His record is clear. He is the highest type of young manhood, an able, devoted, christian worker.

He is not a member of any political machine or individual interest. He is making the race in behalf of the people and the taxpayers of the district. His platform and record, his honesty, ability and official efficiency are the best reasons to be offered for re-election to the office to which he aspires.

"Stone grows in the two counties," a prominent Democrat said. "I am for representative Stone, because I know him to be a true, reliable, active young man, one that will represent the people and will do what he promises to do."

In one of his recent speeches, he said:

"A year ago I promised, if elected, to present in part the present law. Did I find that promise? Yes, I find it. I find the bill that I brought before the legislature, but it did not pass. I find it in the hands of the Democratic body. I promised to labor and vote against any increase in your tax. That promise I fulfilled. I promised to vote and labor to the end against any increase of salaries, creating new offices and appropriating money carelessly. That promise I kept to the letter. I promised you relief of the law created by the Session of 1912. I worked and voted for a measure leaving it optional with the Fiscal Court. I tried to the best of my ability to carry out every promise made by me.

"My friends, I believe in economy. I believe in the future. I believe that a better public trust. I believe in the faithful discharge of duty, whether it be in private or public duty.

"I believe in the loyalty of the citizen to the supreme power of the State, the supreme power of a Kentucky citizen. I believe in the Constitution of the State and the laws in pursuance of that Constitution, every citizen in Kentucky believe in equity, in equal protection, in a fair and scientific tax law, one which provides a just and equitable classification, dealing fairly with the farmer and the capitalist with visible and intangible wealth and which shall cause every class of property to be listed for taxation."

Representative Stone said in another speech:

"My first struggle and first vote cast as a servant of the people was in opposing the extra help, which for the last three sessions, cost the taxpayers of this State \$46,000. And yet every member of that body promised his constituents that he would practice economy in all departments of the State. A promise, but fulfillment, none. Now my friends what we need in Kentucky is more business and less politics; fewer promises and more

MINISTERS NAMED TO CHURCHES

Of M. E. Conference in Session at
Hartford—Rev. J. A. Chandler
Returned to Marion.

The Louisville Conference of the Methodist Episcopal Church, South, which was in session at Hartford for about a week adjourned Monday at noon after assigning ministers to pulpits in the various districts. Most of the business had been disposed of at Saturday's session, and for the final session there remained only one or two committee reports and the reading of the Conference appointments, which was as follows:

Cecilian, Robt. L. Sheemaker, of Tolu.
Hartford, Robt. Johnson, formerly of Tolu.
Bowling Green circuit, J. B. Adams, presiding elder.
Smith Scottsville, R. T. McConnell.
Owensboro circuit, J. T. Rushing, presiding elder.
Greenville, J. R. McAtee.
Lewisburg, W. L. Shell.
Staley, E. Y. Wilson.
Crofton, J. A. Wheeler.
Hopkinsville circuit, Virgil Egan, presiding elder.
Salmon, R. H. Richardson.
Southland, L. S. Moore.
Marion, J. A. Chandler.
Hartsville, R. S. Richards.
Tolu, Alexander Porter.
Piketon, S. K. Proffing.
Rev. Chandler and Mrs. Chandler are quite popular here, and their interesting children are especially welcome to the many little friends.

performance; a babying and corruptness; a law on the statute of our state to force \$50.00 of our state constitution, prohibiting State officials, more especially members of the General Assembly, from accepting free pass or passes. We, as true Kentucky citizens, loyal to the government, patriotic in our views, should stand firm in favor of genuine popular rule, and against every species of corruption. I want to assure you that as long as I have the power to do so I am going to fight for clean government, clean methods, clean politics and a greater Kentucky."

On the anti-pass bill he said: "I am not radical in my views. I am not an extreme conservative, but I believe in regulation. I would not cripple or injure any beneficial institution. I believe in and will stand for the great institutions in a fair and business way. Railroads are public highways and not private roads. Their charters were not granted to them for the purpose of blocking Legislative Halls with a bundle of free passes. Every free pass issued is in defiance of the law. This favoritism in passenger rates has been accepted by members of this body, and that against their sworn oath of office."—Advertisement.—State Press

SCHOOL GIVES BIG RECEPTION

To Parents of Pupils—Have Good
Crowd and Everyone Enjoyed
The Evening

The Reception to parents given by the Faculty of Marion Grade and High School, Tuesday evening, October 6th, was a most successful one. The school was crowded with parents and the evening was enjoyed by all.

Last week the school was crowded with parents and the evening was enjoyed by all. The school was crowded with parents and the evening was enjoyed by all.

A social gathering was held at the school on Tuesday evening, October 6th. The school was crowded with parents and the evening was enjoyed by all.

The ever-faithful and talented Orchestra of the High School furnished music for the occasion. Miss Holtzclaw was next introduced and in her own, easy way, charmingly entertained the audience with two appropriate readings.

One of the most pleasing features of the musical program was the instrumental quartet: Mrs. S. M. Jenkins, Italian Harp; Miss Lucile Pope, Violin; Miss Linda Jenkins, Clarinet; Medley Cannon, Cello.

The quartette was followed on the program by a splendid reading by Miss Lucile Moore, after which refreshments, consisting of ice cream and cake were served.

In a few well chosen words, Prof. Christian explained the purpose of the meeting which was to organize a Parent-Teachers Club.

W. D. Cannon was a kaid for an address, and in a very forceful way he explained the benefit to be derived from an organization of this sort.

Short, but interesting and enthusiastic speeches were made by J. G. Rochester, C. W. Hynes, C. R. Newcom and E. J. Travis. Every speech of the evening was full of life—the kind of life that uplifts and makes the spirit of co-operation and good will contagious.

Officers for the Marion Parent-Teachers Club were elected as follows: Jno. W. Blue, Pres. Mrs. George P. Roberts, Vice

MUCH INTEREST MANIFESTED

In Revival at Main St. Presbyterian Church.—And Meeting Will
Be Continued

Owing to the unusual interest and the demand of the church people of Marion, the revival meeting at the Main Street Presbyterian church by Evangelists Bell and Lauderdale will continue over the coming Sunday. Definite action was taken following the men's meeting Sunday afternoon. At that service over 200 men gathered. Following a strong sermon by Evangelist Bell on "Sowing and Reaping" a number of men ranging from 15 to 70 years of age, came forward to dedicate their lives to the service of the Master. It was a powerful service and a committee was formed at once to request the Evangelists to stay another week.

The services this week will be as follows: At the church twice daily—10 in the morning and 7 in the evening; open air meeting at the courthouse Saturday afternoon at 3 o'clock; three services Sunday—at 11 a. m., 3 p. m. and 7 p. m. The afternoon meeting will be for Christians only. Special music at every service.

Committee Decides to Defer Payment Until the Weed Now
On Hand Is Sold.

\$54,000 IS NOW ON DEPOSIT.

At a meeting of the district board of the Stemming District Tobacco Association held at Henderson last week, it was decided to defer payment of the \$54,171.60 for the present and push the sale of 41 hogsheads, now in the hands of commission merchants in Liverpool. Mr. Elliott general manager explained the efforts he had made to push the sale of this tobacco.

The cash now on hand is on deposit in Henderson drawing 4 percent interest.

The committee hopes to sell the remainder at an early date, and a final distribution will be made as soon as a sale is closed. An announcement to this effect, signed by Jas. N. Banks, secretary pro tem, was made in Henderson papers.

under the direction of Mr. Lauderdale, assisted by Prof. and Mrs. W. B. Yates and the revival male quartette.

SOUDAN GRASS.

Many people have never heard of this new plant, and if they have they have just passed it by with many other "new things" that are coming along and classed it with the swindles or failures of the day, or possibly have said it might do for Texas or Soudan Africa, but not here. They certainly for one time have turned a friend from their door. To those who are not acquainted with Soudan I will give the results obtained by a neighbor of mine and myself.

We decided to try it out last spring. So we ordered 10 lbs. of seed each. I had no experience nor neither did he in the culture of this grass. The only thing I had to plant it with was a two row corn drill and corn plates. I drilled half of my seed then split the middle, making rows about 20 inches. The ten pounds planted one acre. My neighbor planted his with a one horse wheat drill stopping every other row, making it about 16 to 18 inches. Planting this way made it necessary to cultivate a time or two to keep down grass between the rows. This we did with a cultivator, plowing four rows each round, using the small plows. Being so close the row was cleaned at one going through. We decided to test for hay and seed, he for hay and I for seed. The first crop of hay cut five large loads. The second cutting, about 45 days later cut 2 loads,

and at this writing, (Oct. 1st) the third crop which will easily cut two loads is almost ready to cut. These loads were full size hay frame loads. Not less than 1000 pound loads. Now there was a wet sag through this acre and to be fair in estimating 3-4 of an acre would come nearer being the correct acreage. My friend reports that he has never seen hay that his horses and cattle eat more greedily, and will say that he is more than pleased with his little \$4.00 investment for seed and next year expects to plant a large quantity. My seed ripened about Aug. 15th. It grew something like 5 to 7 feet tall and looked almost like a hedge, it was so thick in rows. It is claimed that one seed will stool and make from 75 to 150 stalks. So you can guess how thick in the row it grew. My troubles began here—could not cut with binder, too long to pass the curtains, could not mow it as it would have tangled so could never thresh it. After some days of study we took corn knives and topped about waist high, tied it in bundles and shocked it without capping. We let it dry about two weeks, hauled it to a threshing machine and saved about 500 lbs. of nice seed, everything was on trial the thresher man had to learn and, in fact it was an experiment all the way around. Am sure if we could have had the proper threshing we would easily have saved 100 lbs more seed, but I'm not yet through with

this patch—as soon as we topped it there came a sprout or succor at every joint and within a short time you would never have guessed this grass had been topped. We mowed this for hay last week securing some 5 or 6 loads. I do not know the exact amount but it could not have been under the above estimate and I believe it more.

This crop, to my mind, is one of the coming crops for the farmer. I have never tried sowing for pasture but learned that this has been tried and proven a perfect success. The rapid growth furnished more pasture than any other grass, and its fattening qualities which vary only about two per cent from alfalfa make it in a class to itself. We plant either in drills or broadcast as soon as frost danger is over—say the last of April or the first of May, in this climate. For hay, three crops can be secured. I think I shall try sowing next year for hay with a wheat-drill, shutting down feed until seed will be from one to three inches apart in rows, leaving all the holes open.

In conclusion, will say the man who rents, certainly will find this his friend. The renter has no time to sow timothy and clover for hay. Next year probably be on another farm.

In sudan grass he gets his crop along the same year sown, and when winter comes he has plenty of good hay; let him move where he may. Sudan can be sown after wheat comes off the land and make a fine crop of hay, thus securing two crops in one year. Try it, brother, if you can't believe this report, and you will find it so.

WHAT STANLEY SAID

In His Speech In Louisville In Regard To Good Roads.

The keynote of the ideals of Government that have moved A. O. Stanley during his public career were voiced in a few words by Stanley himself in an extemporaneous speech he delivered at the State Fair in Louisville on September 16th. The gubernatorial candidate was speaking of good roads and during the course of his speech said:

"What has preserved this Government for 150 years or more? I will tell you: The plain citizen seated in a cane bottom chair on a rag carpet, before an open fireplace, with a bible on his knees and his family grouped about him, his head bowed, simply and reverently asking God to guard him through the night, and arising in the fear of that same God at dawn, to take up the simple tasks of the day. He votes with no thought of profit to himself, but for the good of his family and the honor of his country and the glory of his God. This is the power upon which this republic rests, and must forever rest."

Gets Over \$50.00 In Loaf Of Bread For A Nickel.

Fostoria, O. Oct. 5.—John C. Danner, manager of the Fostoria Baking company, sold over \$50 in cash, alike amount in checks and two loaves of bread for a nickel.

Fred Orth, an assistant, was left in charge of the bakery, and after missing the usual banking hour, selected a hollowed out loaf of bread as the best hiding place for the money he had taken in during the day.

He placed the money in a loaf of bread and tied it up. The next morning Danner himself was the first in the bakery and made several sales before Orth arrived.

Search thus far has failed to

reveal the purchaser of the bread containing the money.

CAMPAIGN BOOK OUT

Democratic Guide Book Contains Valuable Data. Copies Sent To All Speakers.

The Democratic campaign book for 1915 is out and copies of it have been mailed from the headquarters at the Galt House to prominent Democrats in all parts of Kentucky. The first batch went to those who are to take the stump that they may have at hand the abundant material contained in the book to help them in preparing their speeches.

The book contains the record of the Democratic and Republican parties in both state and nation and gives first hand information concerning the stewardship of the Democrats. No facts are left out which will be valuable to show the contrast between the two parties in the management of State affairs and even the platform of both for many years past are set forth. Particular stress is laid upon Republican extravagance.

Five speeches are contained in the book, being printed in full. They are the speeches of the gubernatorial candidate, A. O. Stanley at Glasgow, on Sept. 20th, and his speech in Louisville on the subject of good roads, delivered on Sept. 16th; the speech of Senator Ollie James at the state convention and the convention speeches of Hon. E. J. McDermott and the Hon. H. V. McChesney, also delivered at the state convention.

Among the issues discussed in the book, either the platform of 1915, which is taken up section by section, or in speeches on taxation, the condition of the treasury, good roads, schools, "invisible government," public utilities, corrupt practices and franchise. Stanley's personal and political record is covered in full. A good deal of space in the book being devoted to a description of his career as a public man and what he has accomplished in the state and in the halls of Congress at Washington. The book contained 196 pages and is bound in convenient form.

Ankle Watches Barred

By Kentucky Principal.

Covington, Ky., Sept. 30.—Covington high school girls are prohibited from wearing ankle bracelets and watches. This order was issued by Prof. H. S. Cox, principal of the high school. The prevailing short dress style betrayed the pedal novelty. Prof. Cox declared that he understood that the boys were wearing fruit pins on their socks. When the principal learned that jewelry was worn on the nether extremities he called a meeting of the girls and informed them that the ankle watch habit must stop immediately.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

Stork Flies Into Train And Leaves Girl Baby In Pullman.

Old "Dr." Stork has braved all kinds of weather and varying conditions but he broke the record yesterday morning when he raced with the Chesapeake & Ohio flyer, due here at 9:10 o'clock, and deposited a girl baby, in the Pullman sleeper, Virginia Manor, in the berth occupied by Mrs. W. L. Mintz, of Lynchburg, Va., who with her husband was en route to Louisville, where the latter is attending the Baptist Theological Seminary.

News of the arrival of the little Miss spread rapidly throughout the train and the baby naturally was the cynosure of all eyes during the remainder of the trip. As soon as Dr. Hutchins, of Olive Hill, who was in attendance, announced the birth of the baby and the fact that both mother and child were in splendid condition, despite the unusual situation, passengers and trainmen held a consultation with the father and it was the consensus of opinion that the little lady should be christened Virginia Manor, in honor of her birth place.

Mr. and Mrs. Mintz boarded the train at Olive Hill and soon after leaving that station Mrs. Mintz became ill. Dr. Hutchins who was a passenger on the train was called in to attend her and a few minutes later announced the birth of the little girl. When the train reached Lexington Mrs. Mintz and her daughter were doing so well it was decided to continue the trip to Louisville. Several persons in Frankfort were apprised of the birth of the little girl when the train reached here yesterday morning and by grace of Dr. Hutchins and Mr. Mintz were given a peep at the little lady while the train was standing at the L. & N. station. —Frankfort State Journal.

Alburt Elder says the married men hold a different opinion on the question of women's rights, but they all agree that the woman should get up first in the morning and make a fire.

Hub Buttlar says a single man has to have a conscience to tell him when he has done wrong; a married man doesn't need one. He has a wife.

Lacy Loyd says it takes a mighty good liar to sit down beside a pretty girl and talk to her for an hour and say nothing.

Dick Heron says you hear of other things, but you never hear of a man working himself to death when he is working for another man.

Uncle Guss Bentley says the difference between smallpox and marriage is that you can't get smallpox the second time.

Uncle Dock Green says always try to remember that if you keep your mouth closed other people will be compelled to agree with you.

George Elder says: My insurance company will tackle almost any risk, but it isn't foolish enough to insure happy marriages.

NEW DIET FOR ANGLER FISH.

Eats Ducks In Connecticut and Is Caught With Ice Tongue.

Greenwich, Conn.—A strange specimen of the angler fish was caught by Captain Palmer at South Beach, who removed from its insides two ducks from J. Kennedy Tod's Inn's Arden estate, one of which was still alive. The fish was struggling in the water when seen by Captain Palmer and was landed with a pair of ice tongs. It is a yard long, and its mouth is 6 by 8 inches. The fish has been frozen in a cake of ice at the local Mather ice plant and is exhibited in the window of the Keelmer market here.

The angler fish is described by Webster's Dictionary in this way: "A pediculate fish (Lopholichthys piscatorius) of Europe and America, having a large, broad and depressed head, with a mouth very large. It reaches a length of from three to five feet and is said to be partly buried in the bottom and to entice other fishes within its reach by movements of fleshy appendages on the head."

No mention is made of ducks.

LONG TRIP ON 50 CENTS.

Texas Boy Travels All the Way to New York With Several Stopovers.

New York.—Dacy Hambrick, fourteen years old, two weeks ago a "newsie" in Houston, Tex., arrived in New York recently on the morning freight from Washington, having traveled more than 3,000 miles, with stopovers at New Orleans, Atlanta and Washington, for an expenditure of 50 cents. He applied to Patrolman Speck to help him. Now he is remanded by Justice Hoyt to the Children's society until his grandparents, with whom he lived at Houston, can be communicated with.

He left Houston, he said, with 71 cents in his pockets, of which 21 cents remain. Part of the time he rode inside of the cars and part of the time on broke beams. He lived on water and bread. He has not decided that staying at home is far more enjoyable than running away.

DESCRIBES WOUNDS OF MODERN BULLET

Projectile of Present Less Dangerous Than Older Ones.

New York.—Major P. C. Pauntieroy of the United States medical army corps writing in the Medical Record tells of the wounds caused by modern weapons of war. Major Pauntieroy says in part:

"It may be said in general that the wounds inflicted by the projectiles of the modern firearms are not so extensive as they were from the older weapons, and also that their treatment is correspondingly less difficult.

"Let us consider the effects of the old time larger and lower velocity projectiles, for by comparison with those of the modern small, steel jacketed, high velocity bullet we can then better understand the characteristic appearance of bullet wounds in general.

"The old round musket balls were of soft lead and from 0.702 to 0.75 inch in diameter. Their initial velocity was from 600 to 700 feet per second.

"The destruction of the soft tissues by these round balls of low velocity was in proportion to their diameter, their mechanical effects being that the tissues were stretched, as it were, to permit their passage.

"The wound of entrance was about the size of the ball, the wound giving the impression of having been punched out. This ball occasioned a track of devitalized tissue greater than its diameter. The wound of exit was irregular in shape, with everted edges and always larger in the skin than that of the entrance.

"On striking bone this ball usually flattened itself and nearly always remained in the tissues. Although this round ball, at its maximum velocity, could occasion great damage, the occasional bullets of a later date occasioned much more extensive injuries. Extensive displacement of the splinters of bone in the track was caused by the impact of the bullet. The shaft of the bone above and below the seat of the fracture was fissured. The extensive devitalization of the soft parts, together with extensive damage to the bone, offered a field with little resistance to infection and extensive suppuration. To these pathological characteristics must be attributed the great danger to life occasioned by these old round bullets.

"Having considered the wounds occasioned by the old large caliber round and elongated lead bullets of low velocity, we are better prepared to understand the effects of the modern small caliber steel jacketed, high velocity projectiles of modern weapons.

"It may be said in a general way that the effects of these bullets differ as they occur in one of four zones:

"In the first zone (0 to 500 yards) we see explosive effects.

"In the second zone (500 to 1,000 yards) we see penetrating effects.

"In the third zone (1,000 to 2,000 yards) we see simply wounding effects.

"In the fourth zone (2,000 to 2,500 yards) we see extensive wounding effects."

German Rule in Belgium.

Antwerp.—General von Bissing, German governor general of Belgium, has issued a proclamation to the effect that his orders are the only laws in the country and that edicts of the king "have no force."

LAST TRIBUTE TO NURNBERG.

United States Cruiser Played German Air as Ship Sailed Out to Destruction.

Berlin.—The strains of the German national hymn played by the band of an American cruiser anchored in the port of Honolulu were the last friendly greetings for the crew of the ill fated German cruiser Nurnberg. The Nurnberg was destroyed in the battle off the Falkland Islands on Dec. 8.

Relatives of a sailor on the Nurnberg have just received his last letter, in which he tells how "three thundering cheers were the response from us as the hand aboard an American cruiser which lay anchored in the port struck up the tune of our national hymn. It may be the final adieu for us. It was a noble, inspiring thing for those American sailors to do. They knew that outside the harbor the enemy in superior force was waiting to send us to the whales for food."

The letter is dated Oct. 11, 1914, and was written as the Nurnberg steamed out to join Admiral von Spee's squadron, which was later sent to the bottom by the British squadron. The letter, together with other mull, was given to the captain of a neutral sailing vessel which the Nurnberg met just outside the port.

WOULD ADOPT HER OWN SON

Mother Tries to Recover Child Left at Mission When a Baby.

Chicago.—Patrick Warren Hastings is four years old. Recently his mother, Mrs. Ida Mae Hastings Smith of 2573 Glenwood avenue, who has been seeking in three courts to gain his custody, filed a petition in the county court seeking to adopt him. Frederick L. Smith, the mother's present husband, joined in the petition.

Patrick's father, Warren W. Hastings, is dead, and before Mrs. Hastings became Mrs. Smith the child had been left at a mission where Mrs. Lee C. Hackett of 5637 Washington boulevard found him and took him home. Mrs. Emily F. Holey of 3427 Prairie avenue was appointed guardian.

The petition sets forth that the adoption was sought in order to make the child eligible to inheritance.

FIVE-YEAR-OLD BOY LIKE HELEN KELLER

Deaf, Mute and Almost Blind, Displays Wonderful Powers.

St. Louis.—Ernest Smith, five years old, deaf, dumb and almost blind, was taken from the City hospital three years ago after his mother deserted him by the Missouri branch, International Sunshine society, and is in a fair way of becoming as remarkable as Helen Keller, according to medical authorities, specialists and instructors in the Missouri School for the Blind.

The child, who three years ago was not expected to live and who was declared to be mentally defective, is an excellent proof of what care, the proper treatment and skilled attention will accomplish. At five he displays a healthy devotion to the sports indulged in by boys of his age the world over and an abiding interest in the carrying out of mischievous pranks.

Since an operation performed several months ago, which restored to him in a slight measure the use of his left eye, he has displayed a sense of touch and perception which have set his elders wondering and which has determined them to secure for him the best advantages obtainable to make of himself other than an ordinary mite.

He recognizes colors readily, is able to distinguish his Sunday clothes from those of the every day variety, he is quick to notice anything new in the wearing apparel or speech of the visitor in the home in which he is being cared for, and he makes known his likes and dislikes in an emphatic manner in everything ranging the gamut from foodstuffs to persons.

In the opinion of Mrs. F. W. Dammhoff, for fourteen years president of the Missouri Sunshine society and who resigned that post in order to devote her time wholly to caring for blind children under school age, the child's powers of observation are nothing short of remarkable.

RAISES BEES ON BOTTLE.

Men With 500 Colonies Feeds Young on Sugar and Water.

Chicago.—If you are an apiculturist and your bees do not thrive in the long winter season try raising them on a bottle. H. H. Thale of Maywood, Mo., who has 500 colonies of the little honey makers, has found this method successful.

Mr. Thale resorted to bottle feeding of baby bees when he discovered that cold spells materially cut down the number of bees. He places the bottle on the ledge of the hive, and through a little valve a mixture of sugar and water trickles into a steel trough which extends into the hive. It furnishes the bees plenty of nourishment and helps along during the breeding season.

Mr. Thale last year marketed 11,000 pounds of honey.

German Rule in Belgium.
Antwerp.—General von Bissing, German governor general of Belgium, has issued a proclamation to the effect that his orders are the only laws in the country and that edicts of the king "have no force."

PEORIA WOMAN TELLS EXPERIENCE

Mrs. W. L. McClellan, of Peoria, suffered torture from indigestion, gas, belching and other symptoms of stomach trouble. She spent large sums of money for doctors' advice and medicine. Still her condition did not improve. She found relief, wonderful, surprising relief in a drug store window. This is her story, as she tells it: "I suffered so from distention and colicky pains that at times I was completely incapacitated for my household work. I saw a window display of Mayr's Wonderful Remedy and decided to purchase a bottle, which I did. I have taken only one bottle and the results have been really wonderful. I have not had a pain in my stomach since, and let me say that for the first time in many, many months, two days following I have had a natural movement of the bowels. I feel I cannot say enough for the remarkable virtues of your remedy."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

A Letter From Granger, Wash.

Granger, Wash., Sept. 22, 1915.

Editor,
Crittenden Record-Press,
Marion, Ky.,

Dear Sir:
Please find inclosed (\$1.00) one dollar, money order, to extend the good old Press to my address for another year. I am just as glad to meet with my paper every Monday as if it were one of my best Kentucky friends. But "gee" you ought to see me when it fails to arrive, which is often the case. Well we had some real hot weather in August but are having some nice cool weather at present. Had a fairly heavy frost last week over in the Reservation. Several different kinds of late fruit are being shipped at the present, which is quite an interesting business. If you have a copy of the date, Aug. 26th please send it along if it isn't any trouble to you.

Thanking you for your past favors I remain as ever,
Yours,
M. A. Lewis.

Greek Mobilization To

Bring 400,000 To Arms.

Paris, Sept. 29, (9:30 a. m.)—Mobilization of twenty classes of Greek troops will call to the colors 400,000 men. This is the official figure given by the Greek War Ministry yesterday, as forwarded by the Athens correspondent of the Havas News Agency. The War Ministry states that there is an abundance of equipment and munitions for these men.

The correspondent adds it is unknown whether King Constantine will take active command of his forces. If he does not do so his brother, Prince Nicholas will be placed in command.

HAWAIIAN SUGAR

Senator Ollie James of Kentucky Wants It Free.

Against this almost universal sentiment for a suspension of the free sugar clause I heard but one dissenting note during the entire trip. The morning I reached Washington the Post of that city carried an interview with Senator James of Kentucky who made the trip to Hawaii with the Congressional party in which he was quoted as saying: "Hawaii is exceedingly prosperous and I am more than ever convinced from what I saw that a tariff on sugar is not needed. The Hawaiians are getting \$95 a ton for sugar and in many instances the yield is as much as nine tons to the acre. Under such conditions the Hawaiian farmers even with free sugar prosper many times more abundantly than our farmers in Kentucky and other states and I see no reason why the millions of sugar consumers in this country should be forced to pay a tax that is not in the least needed."

This pronouncement by the Kentucky Senator naturally caused widespread comment in Washington. It was cited by nearly everyone I met as soon as they learned of my connection with the Louisiana sugar industry. Many of them referred to the fact that Senator James' brother-in-law, Congressman Thomas, of Kentucky, who also was a member of the Congressional party which made the Hawaiian trip had similarly delivered himself upon his return to Washington a few weeks previous. The reiteration of these sentiments by Senator James was therefore generally accepted in Washington as an indication that powerful Kentucky interests could be counted upon to keep up the fight for free sugar in the next congress.—Exchange.

WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Louisville, Ky.—"I think if more suffering women would take Lydia E. Pinkham's Vegetable Compound they would enjoy better health. I suffered from a female trouble, and the doctors decided I had a tumorous growth and would have to be operated upon, but I refused as I do not believe in operations. I had fainting spells, bloated, and could hardly stand the pain in my left side. My husband insisted that I try Lydia E. Pinkham's Vegetable Compound, and I am so thankful I did, for I am now a well woman. I sleep better, do all my housework and take long walks. I never fail to praise Lydia E. Pinkham's Vegetable Compound for my good health."—Mrs. J. M. Russell, 1900 West Broadway, Louisville, Ky.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

LAYNE & LEAVELL.

Little Things That Count.

How often in our busy life
 We speak a bitter word;
 We care not who the listeners are,
 We care not where 'tis heard.
 We do not know within our heart
 To what it may amount,
 And, truly it is only one
 Of little things that count.

We often wound the trusting heart
 By being insincere.
 We do not think that which we do
 May cause a lonely tear.
 We give it but a passing thought,
 And bother not about
 The little things that rise and cause
 The trusting heart to doubt.

We often wrong within ourself
 The ones who love us true,
 Because they tell us of a fault;
 We're all impatient, too,
 And do not down the angry words
 That to our lips may mount,
 But watch and wait; 'tis only one
 Of little things that count.

How often from our very heart
 We let our anger rise,
 And never mind the pleading looks
 That come from soulful eyes;
 We crush, we bruise, in passion's hour,
 And scorn the falling tear;
 Little things, oh, little things,
 What sorrow wrought you here!

You count, oh yes, you little things,
 You count to sadden trusting hearts,
 You count for naught but pain.
 You count as clouds in some one's sky,
 You darken some one's day;
 O cruel little deeds and words
 We can't undo, unsay!

Then ever speak the kindly word
 Instead of one of pride;
 'Twill banish sorrow from a soul,
 And anger turn aside.
 The loving word and deed and glance
 Is borne on angel wings,
 And angel voices echo true;
 Be kind in little things!

OVERALLS TO BABY SAYRE.

Colonel Bill McDonald Prepares
Youngster For Work.

Washington.—Colonel Bill McDonald, the Texas ranger, presented to Francis Sayre, the White House baby, a pair of blue jean overalls. The overalls arrived ahead of Colonel Bill and were a mystery until Colonel Bill strolled up to the office building.

"Colonel Bill," asked the reporters, "are you responsible for the baby's new blue pants?"
 "Yess," drawled Bill. "I sent 'em, and then brooches is all right for that kid. They may be a little too big for him now, but he'll grow up to 'em."

Then he explained that Mrs. McDonald, the pretty bride whom he recently brought with him from Texas, was the maker of the little overalls.

The president wrote a letter to Mike Donovan, who sent a pair of half ounce boxing gloves to the baby, thanking him for the gift, and remarking that he was sure the baby would use the mitts "as soon as he was able to strike out for himself."

HORSE LONG A PRISONER.

Owner Has Kept Him Confined In
Stall For Having Run Away.

Muncie, Ind.—The local Humane society does not know how to proceed in the case of a farmer near Yorktown who for eight years has kept a horse a prisoner in its stall.

The horse when three years old ran away with the farmer and seriously injured him. In the eight years the horse has not had any exercise except such as he might get in his stall. It is said the long confinement in the barn has caused the horse to be extremely nervous and that he frightens at the slightest noise. The Humane society's officers seem to doubt that they could convict the owner of cruel treatment of the horse, but may conclude to file a charge. An effort probably will be made to induce the owner to sell the animal in order to avoid being prosecuted.

HOSPITAL SERVICE LIKE MECHANISM

System Provides Prompt Res- cue and First Aid.

Paris.—One of the war correspond-
ents writes:

"A trip to a field hospital not far from the English lines enabled me to obtain the information contained in the enclosed diagram, which I send you in the hope that it may be of interest as showing the wonderful system of caring for the wounded."

"The diagram gives a good idea of how men wounded on the firing line are taken care of by the army medical

corps of the British army and passed back by successive stages to the base hospital. Behind each regiment is stationed a surgeon and sixteen stretcher bearers.

"The wounded go from there to the regimental aid post. Field ambulance bearers carry them to the advanced dressing station for adjustment splints, dealing with hemorrhages, etc. Ambulance wagons then take the wounded to the main dressing station, where there is an operating room or tent and accessories for performing urgent operations."

"At the collecting hospital further surgical aid is given if required, and then the wounded are taken to the base hospital."

PIGS BORN WITH TUSKS.

They Thrive, Although Owner Breaks
Off the Protuberances.

Lumberton, N. C.—J. G. Hundy reported a litter of pigs at his place all born with tusks about three-quarters of an inch long. There were eleven pigs in the litter, and every one had tusks, from two to three on each side. Mr. Hundy broke off the tusks with a pair of pliers, and the pigs are doing well. In every other way the pigs are perfectly normal.

Some account for this unusual occurrence—though similar occurrences have been reported during the past few years—by crossing breeds, though that seems to be just guesswork.

The Next Best Thing to The Pine Forest For Colds Is--

Dr. Bell's Pine-Tar-Honey which goes to the very root of cold troubles. It clears the throat and gives relief from that clogged and stuffed feeling. LOYD'S BRAIN LEAKS.

By F. S. LOYD:

Uncle George Stallions says: Some people are as quick as powder and others are as slow as cold molasses.

Kirby Greer says: It's easy to range a man's intelligence. Draw him into a discussion, and if he agrees with you he is sensible.

Uncle Dock Green says: The first woman handed the first man an apple but her daughters have been handing men lemons ever since.

Dan Patten says: Some men will permit their appetite to outgrow their income and then blame it onto the high cost of living.

Roe Pattison says: Once in a while you will meet a man who is so careful of his conscience that he uses it only on Sunday.

Sam Howerton says: It might help business some if women would do less shopping and more buying.

Ed Baker says: Some of our girls in danger of getting a red nose.

Our County Clerk says: Some men are known by their deeds and others are known by their mortgages.

Albert Elder says: Maybe if a woman would talk less her husband would talk more and she wouldn't have to do so much guessing.

Newt Dollar says: There was a time when a bride was real proud when you sent her a bed quilt as a wedding present; but if a man tries it these days she would have him arrested.

Dr. Deboe says some of the biggest lies in circulation are the ones that are backed up with affidavits.

Albert Elder says some women are so contrary that when they get their own way, they don't want it.

U.S. EMPLOYMENT BUREAU IS OPENED

Labor Department to Act as
a Clearing House.

MOVEMENT COVERS COUNTRY

Complete Preliminary Efforts to Bring
 Together Those Who Want Work and
 Those Who Want Workers—Post-
 masters Distribute Application Blanks
 to Unemployed.

Washington.—The department of labor has completed the preliminary work in connection with the federal employment bureau, and necessary blanks are being sent to employers throughout the country and to post-offices for distribution to those who are seeking employment.

In a speech before the convention of the American Federation of Labor at Seattle, Wash., on Nov. 12, 1913, Secretary Wilson said he appeared to convey the statement "that the department of labor as now organized and directed will be utilized to co-operate with the great trades union movement." Secretary Wilson also stated that "the

SECRETARY OF LABOR, WILSON.

organic act creating the department of labor, in its ultimate analysis, presupposes dealing with trades unions and through trades unions for the betterment of wage earners, and properly so." He added: "All trades union movements may profit by the assistance of this department of the government. Of what value would it be to mediation to apply to the department of labor to interfere, to use its good offices in an effort to bring about an adjustment of a trade dispute, if the workers themselves are unorganized, if the workers themselves have no economic force that they can use?"

The postmasters throughout the country will distribute the application blanks to the unemployed, who will fill them out and return them to the postmaster to be forwarded to the department of labor postage free.

The applications for employment are designed to cover practically all forms of employment, both skilled and unskilled, in addition to domestic work and farm labor. The applicants are required to answer numerous questions as to age, height, weight, trade, nationality, qualification for labor other than trade mentioned, languages spoken, name of two former employers, reason for loss of last employment and wages expected.

One difficulty in the present federal employment bureau plan is the question of transportation. On the application blanks the unemployed are asked to state what, if any, money they can afford to pay for their transportation to a job, and the employer also is asked to state what, if any, money he will advance for transportation to bring the unemployed to the job he desires to fill. It is obvious that the average man out of work cannot be prepared to pay his own transportation if the railroad fare amounts to very much.

Commissioner of Immigration Cammelt in his last report suggested that a part of the money received from the immigration service, of which there is now \$10,700,000 in the treasury, might be used for such a purpose. Should the question of such a utilization of so large a fund be brought to the attention of congress it is certain it would be carefully scrutinized before consent was given.

COLLEGE HEALTH DEGREE.

California Students Will Take Course
in Preventing Disease.

San Francisco.—"Graduate in public health" will be the degree awarded by the University of California at the end of a six-year course in a new profession—that of keeping everybody well.

For a long time the universities have been teaching how to cure the sick but the aim of this new course in preventive medicine is to train experts whose whole purpose will be to prevent any one from ever being sick enough to need a doctor.

"WORDS FAIL ME," SAYS YOUNG LADY

Indiana Girl Tells How She Was
Benefitted By Tanlac.

Louisville, Ky., Oct. 6.—

"Words fail me in attempting to describe my gratitude for the the benefits I have derived from the use of Tanlac," said Miss Clara Butler, a prominent young woman of Borden, Ind., who is visiting friends in Louisville.

"I have not enjoyed the very best of health for several months," Miss Butler continued. "I was all run down and so nervous that the least excitement made me almost frantic. My digestion also was very often very poor, and very often I found myself unable to partake of even the very lightest liquid foods."

"I am glad that I decided to take Tanlac. The medicine certainly is very fine. I have been benefitted in every way and always shall think well of Tanlac."

Tanlac, the premier preparation, is sold in Marion, at J. H. Orme's drugstore, and in Blackford at A. T. Brown's drugstore.

R. M. Franks Succumbs (Continued from page 1)

tuberculosis, and death came as relief to his frail and weakened body. For two years he had been making his home with his daughter, Mrs. T. T. Guess and husband, at Tolu, who were always ready to grant his every desire and seemed to foresee even his unspoken wishes and found pleasure in doing any service that would relieve his suffering and make his last days happier.

All of his children were with him during his last illness and he often remarked that no man could be blessed with children who were more patient more gentle and more loving. Everything that loving thoughtfulness and tender hands could do was done but all to no avail. His work had been ended and the Master called him to reap his reward.

Robert Marion Franks was born March 10th, 1850 and died Sept. 30th, 1915, aged 65 years and 6 months. He was twice married, first to Addie P. Eder, Dec. 24th, 1871; second, to Robert Ann Love Oct. 17, 1888, both of whom preceded him. Of the first union three children survive Mrs. T. T. Guess of Tolu, Mrs. C. E. Weldon, of Paducah, and Clarence V. Franks, of Owensboro, and of the second, two—Gladys and Brawnie, who live with their sister at Tolu.

Besides his children, he is survived by three brothers, John

Ed and Dave, and three sisters; Mrs. Will Hurley, Mrs. Joel Farmer and Miss Addie Franks.

Mr. Franks was converted under the ministry of his uncle, the Rev. W. T. Moore, in 1874; united with the Baptist church at Crooked Creek, later with Dunn Springs. In 1894 he placed his membership with the M. E. Church South, at Hurricane and remained a most faithful member and earnest worker for the Master until his death. He was one of the founders of Hurricane camp-meeting and the very great success of the meetings during the many years past has been due in a large measure to the untiring efforts of this noble man of God.

For twenty years or more he has been closely connected with the Sunday School work of the county, at his death there were perhaps not more than three men in all Kentucky who were his equals in this great work. He was president of the Crittenden County Sunday School Association at the time of his death and in this work he will be missed more than words can ever express.

In any field of church work Bro. Franks was always more than willing to do his part—his greatest pleasure seemed to be in doing something to make others happier and better. In his death his children have a kind and loving father, the church a loyal worker and every man who knew him a friend. A friend of whom it could be truly said, "He loved his neighbor as himself." The funeral services were conducted at Hurricane Friday afternoon by Rev. W. B. Yates in the presence of a large concourse of relatives and friends. Appropriate talks were made by W. J. Hill, Ed Dean, Hollis Franklin, Tom Hill, Kit Shepherd, J. M. Phillips, Robert Thomas and J. T. Terry.

School Reception

(Continued from first page.)

President, Hollis Franklin, Secretary.

Every parent and every other person interested in school is enthusiastic over the outlook and much good will be derived from this Parent-Teacher meeting. A week or so ago the Record-Press predicted that this would be a banner year for our Graded and High Schools.

Again, the Record-Press makes the same statement and is backed in it by every man and every woman in the town of Marion who is interested in school, and with this we agree with every parent and every teacher working hard in hand—we can, we must and we will succeed. Let's have three rousing cheers for Marion—our teachers, her trustees—her parents and her boys and girls.

Mrs. G. P. Goffish and four children spent the last of September with her parents, Mr. and Mrs. C. E. Dobinsky, near Tolu.

Everything has been exceedingly quiet (except the wind) in this neighborhood for three weeks on account of diphtheria. Mr. Davidson resumed his school work Monday. And we hope the Sunday school and prayer meetings will not be discontinued longer.

Huston & Cochran have filled their silo on the G. A. Terry farm.

Mrs. P. C. Moore went Sunday the guest of Mrs. George Tucker.

Quite a good many from this neighborhood attended the funeral of R. M. Franks at Hurricane Friday.

Mr. and Mrs. Hugh Norris were in Marion Friday.

Mrs. John Armstrong was called to see her daughter, Mrs. Charley Belt, who was very ill at her home in the Hebron neighborhood, last week.

Miss Addie Franks has returned

from Tolu.

Donald Moore, of Ft. Stevens, Ga., who is visiting his parents, Mr. and Mrs. R. El Moore, near Sheridan, was the guest of his grandfather, R. D. Moore, one day last week.

FAIRVIEW

We farmers are all happy it will not frost for a few days yet.

Mr. and Mrs. Lashie Howard of this place visited Mr. and Mrs. Elmer Childress Sunday.

Al K. and T. L. Waddell passed through this vicinity last Friday with a fine drive of hogs.

Reva Lowrey and Bessie were the guests of Mr. and Mrs. Lashie Howard Sunday.

Quite a number from Crittenden were in Blackford last Saturday.

Reva J. F. and W. T. Oakley were here Monday enroute to their home at Marion. Bro. Paine had been to Providence where Oakley had been to Ashland church near Clay.

John H. Rock, of Ontario, Canada, who has been night operator for the T. C. Railroad Co., at this place, returned to Louisville on the 2nd, and to enter the medical department of the University of Louisville. Our Canadian friend is a member of the Senior class and will graduate at the close of this session.

On Friday, Oct. 1st, 1915, Alvin Thompson, a twelve-year-old son of John B. Thompson, while playing on the school ground, accidentally fell and broke his right arm. The broken limb was adjusted and dressed by Drs. D. T. White and J. L. Reynolds.

Dale H. Brasley, of Gary, W. Va., and Louise J. Tinsley, of Percy, Ky., were married Wednesday, Sept. 29th, 1915, and boarded the afternoon north bound train at this place for Elkhart, Va. Miss Tinsley is one of Crittenden's finest girls and your article with a score of others, extend heartfelt congratulations to the happy Crittendenites. Pleasantly.

DEANWOOD

The tobacco crop is about housed.

Dempsey N. Kemp returned from Missouri last week, where he purchased a fine farm near Dexter. He sold his farm in this section recently to Flinn Corley.

The numerous friends of Messrs. E. R. Hill and George Roberts are glad to see them able to be out again. Both of them have been seriously ill during the summer.

Mr. and Mrs. Charles Nichols, of western Texas, have been spending several days with relatives here. Mrs. Nichols is a daughter of Dr. T. L. Dean.

Mrs. Selva and Reva Dean and Rebecca Morse are attending high

school at Marion. They are besting training to fruits and also other items of farm knowledge. He is of English parentage and came from the State of Ohio when a boy but still has a few Irish qualities as he is a good will worker and a good friend of the poor.

Mrs. R. M. Franks, of Tolu, is a daughter of the late R. M. Franks, who was a prominent member of the M. E. Church South, at Hurricane.
